

WHERE TO USE MENTIMETER

Trainings

Find your starting point

Capture attention with an icebreaker and use scales and open-ended questions to gauge where everyone stands.

Activate learning and push thinking further

Engage participants with rankings and encourage critical thinking with open-ended questions.

Check understanding in real time

Hold a fun quiz to assess comprehension and know exactly where you need to dive deeper.

Collect feedback to fuel growth

Get an instant scale of how your training landed and ask questions that pinpoint what to adapt for next time.

Town halls and All hands

Get the conversation going

Make ideas visual with a pin on image slide, and set the tone for an interactive conversation.

Meet people where they are

Ask multiple choice questions and see how opinions segment across groups, so you can see the full picture.

Make sense of the data

Turn open-ended responses into clear takeaways with AI summaries, then spot patterns over time with scales.

Decide what's next together

Use ranking to find what matters most, then open the floor for live Q&A to tackle what's still unanswered.

Strategy, planning, and execution

Energize the room and start talking

Kickstart the conversation with an interactive question that gets everyone thinking and talking right away.

Build a strategy and align priorities

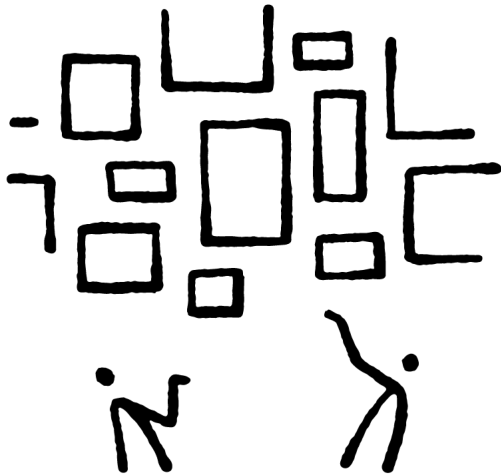

Weigh options with ranking and scales, and map out initiatives with 2x2 grids to find the smartest way forward.

Understand perceptions and spot risks

Reveal patterns in sentiment, buy-in, and readiness, so you can address concerns before they become roadblocks.

Track impact and adapt

Measure progress, refine your approach, and make sure every decision is aligned to move the needle.

Change management

Start strong and focus attention

Break the ice and ground the conversation with a clear starting point that keeps everyone engaged.

Measure buy-in and gauge sentiment

Capture perspectives with multiple choice and word clouds, and use scales to spot shifts as they happen.

Gather feedback and pivot with purpose

Ask feedback questions and get clarity to fine-tune your approach without guesswork.

Celebrate wins and ease transitions

Mark key moments with reflections, then check the vibe before taking the next step.
